Help Your Pet Live Longer !

Studies have shown that **YEARLY** teeth cleanings provide these benefits:

- helps prevent bad breath
- helps prevent heart, kidney and liver disease
- reduces plaque and tartar formation
- decreases gum and tooth infections

Almost all pets over three years of age have some form of dental disease. Poor oral health can cause serious health problems. Even a small amount of plaque buildup can place additional demands on the heart, kidney and liver – shortening your pets happiness and life.

Regular dental care means a happier, healthier pet!

Extensive plaque formation
with tartar buildup

Thicker tartar formation
and very painful

Severe tartar formation,
bleeding and infection
